## RESEARCH EXPERIENCE

---

### Clinical Research 2020

*Mentor(s):* Touka Banaee, MD, and Jaafar El-Annan, MD

- Performed rare pathology case write-up of a patient with macular telangiectasia findings on chronic raloxifene. **Manuscript submitted for publication.**

*University of Texas Medical Branch*

Galveston, TX

### Clinical Research

*Mentor(s):* Larry Puthenparambil, MD

2020

- Performed rare pathology case write-up of a patient with chronic relapsing inflammatory optic neuropathy. **Abstract Accepted to NANOS 2021**
- Prepared an instructional video describing management of a complex, chronic, traumatic retinal detachment using direct perfluorocarbon liquid to silicone oil exchange. **Accepted as a video abstract to AAO 2020**

*University of Texas Medical Branch*

Galveston, TX

### Clinical Research Internship with FAA at CAMI

2018

*Mentor(s):* Charles Mathers, MD, and Rahul Suresh, MD

- Performed analysis of post-event coronary artery disease surveillance data in 1st Class United States Civilian Airman as an intern for the Federal Aviation Administration (FAA).

*Civil Aerospace Medical Institute (CAMI), FAA*

Oklahoma City, OK

### Clinical Research

2016

*Mentor(s):* Amy Lin, MD and Ashlie Bernhisel, MD

- Assisted in the development of a Review Article titled “Intraoperative and Postoperative Pain in Cataract Surgery”. **Published in Survey of Ophthalmology.**

*Moran Eye Center, University of Utah*

Salt Lake City, UT

### Clinical Research

2016

*Mentor(s):* Nick Mamalis, MD and Liliana Werner, MD

- Performed pathology write-up on intraocular lens calcification pathology. **Published on Moran CORE website.**

*Moran Eye Center University of Utah*

Salt Lake City, UT

### Northern Plains Eye Foundation (NPEF) Children’s Vision Screening Initiative

2016

*Mentors:* Ryan Scarborough, MD; Terry Spencer, MD; Jeffery Rausch, OD

*Research Details*

- Performed a prospective comparison study of screening data on a pool of 120 cases collected as part of the Children’s Vision Screening Initiative through the Northern Plains Eye Foundation. Included a manuscript write-up, “An evaluation of SPOT™ vision screening efficacy for children in South Dakota”. **Published in South Dakota Medicine.**

*Northern Plains Eye Foundation*

Rapid City, SD

**Independent Anatomy Research on 3<sup>rd</sup> Segment of Maxillary Artery** 2016

*Mentor:* Thomas Quinn, PhD, and Oleg Militsakh, MD

*Research Details:*

- Performed a cadaveric research study on “The Maxillary Artery as a Recipient Vessel Option for Complex Midface and Anterior Skull Base Microsurgical Repair: A Cadaveric Study”. **Published in *Microsurgery***.

*Creighton University & University of Nebraska Medical Center*

Omaha, NE

**Clinical Research**

2016 & 2015

*Mentor:* William C. Spanos, MD

*Research Details:*

- Performed a case study, with write up, on a dramatic response of unresectable cutaneous squamous cell carcinoma invading the orbit and cavernous sinus to pembrolizumab (a PD-1 inhibitor) therapy. **Published in *Clinical Skin Cancer***.
- Performed retrospective analysis and write-up of post-operative outcomes for a series of oral cavity defect reconstructions during a 4-year timespan using a decellularized dermis (Matristem, ACell Inc.) xenograft for defect repairs. **Published in *WOUNDS***.
- Performed a case study, with write-up, “Treatment of Peritonsillar Abscess in Immunosuppressed Patients”. **Published in *South Dakota Medicine***.

*USD Sanford School of Medicine*

Sioux Falls, SD

**Clinical Research**

2015

*Mentor:* Hasan H. Turaihi, MD

*Research Details:*

- Performed a rare pathology case study write-up, “Ascending colon schwannoma an unusual cause of acute lower gastrointestinal bleeding”. **Published in *South Dakota Medicine***.

*USD Sanford School of Medicine*

Sioux Falls, SD

**Clinical Research**

2015

*Mentor:* Thavam Thambi-Pillai, MD

*Research Details:*

- Performed case study write-up on a rare presentation of pyogenic hepatic abscess resulting from a transmural duodenal perforation of a toothpick identified in the left hepatic lobe. **Published in *South Dakota Medicine***.

*USD Sanford School of Medicine*

Sioux Falls, SD

**Behavioral Neuroscience Research Lab Experience**

2013

*Mentor:* Denise Yilmazer-Hanke, MD, PhD

*Lab Duty Details:*

- Harvested fetal mouse brain tissue, prepared agarose gels and ran electrophoresis samples, prepared and ran RT-PCR samples (RNA and DNA).

*Creighton University*

Omaha, NE
